Primavera Software
The Project Management Solution

Introduction:

This course provides hands-on training for Primavera's latest enterprise based solution (v6.0). Participants will gain a thorough background in the concepts of project planning, scheduling, execution, and control. This six-day course leads you through hands-on workshops that create and track an entire project from initial planning to completion. All workshops and instruction integrate the three basic elements of project management: schedule, resource and costs

Objectives:

- Add a Project to the Project Structure
- Create a Work Breakdown Structure
- Add Activities
- Add Codes to Activities
- Create Relationships
- Schedule a Project
- Organize Activities
- Assign Resources and Costs
- Analyze the Updated Project
